

Weekly Funding Opportunities: Grants Office, County of San Bernardino December 2, 2011

AGRICULTURE

Hazardous Fuels Woody Biomass Utilization Grant

The U.S. Forest Service, State and Private Forestry, Technology Marketing Unit, located at the Forest Products Laboratory, requests proposals for wood energy projects that require engineering services. These projects will use woody biomass, such as material removed from forest restoration activities, wildfire hazardous fuel treatments, insect and disease mitigation, forest management due to catastrophic weather events, and/or thinning overstocked stands. The woody biomass shall be used in a bioenergy facility that uses commercially proven technologies to produce thermal, electrical or liquid/gaseous bioenergy. The funds from the Hazardous Fuels Woody Biomass Utilization (WBU) Grant program must be used to further the planning of such facilities by funding the engineering services necessary for final design and cost analysis. Examples of projects might include engineering design of a 1) woody biomass boiler for steam at a sawmill, hospital or school, 2) non-pressurized hot water system for various applications, and 3) biomass power generation facility. To join in support of the public interest and general welfare to protect communities and critical infrastructure, the applicants to this program seek assistance to complete the necessary design work required to secure public and/or private funding for construction for developing local enterprises to better utilize woody biomass. In particular, USDA Rural Development has established grants and loan programs that might help fund construction of such facilities. The lack of engineering design often limits the ability of an applicant or business to receive federal, state or private funding.

Deadline: March 31, 2012

Maximum Grant: \$250,000

Grant Link:

<http://www07.grants.gov/search/search.do;jsessionid=Ns2fTZCHmJRrDr4nTDzh7qnL20GnvY3JPTvYL9rf6pJvPNWTTWQ6!347337819?oppld=130235&mode=VIEW>

ARTS AND CULTURE

National Geographic All Roads Seed Grant Program and Film Project

The All Roads Seed Grant Program funds film projects by and about indigenous and underrepresented minority-culture filmmakers year-round and from all reaches of the globe. The program seeks filmmakers who bring their lives and communities to light through first-person storytelling. Submission deadlines are quarterly on the 15th of each March, June, September, and December. Award notifications are made approximately six weeks after each of these dates.

Deadline: December 15, 2011

Maximum Grant: \$250,000

Grant Link: <http://events.nationalgeographic.com/events/all-roads/film/>

National Leadership Grants

National Leadership Grants support projects that address challenges faced by the museum, library, and/or archive fields and that have the potential to advance practice in those fields. Successful proposals will seek innovative responses to the challenge(s) identified in the proposals, and will have national impact. The National Leadership Grant program accepts applications under four main categories:

- Advancing Digital Resources—Support the creation, use, presentation, and preservation of significant digital resources as well as the development of tools to enhance access, use, and management of digital assets.
- Research—Support research that investigates key questions that are important to museum, library, and archival practice.
- Demonstration—Support projects that produce a replicable model or practice that is usable, adaptable, or scalable by other institutions for improving services and performance.
- Library Museum Collaboration Grants—Support collaborative projects (between museums and/or libraries and other community organizations) that address the educational, economic, cultural, or social needs of a community. In 2012, a funding priority will be projects that promote early learning.

Applicants may choose to submit a Project Grant, Planning Grant, or National Forum Grant proposal in any of the above categories. •Project Grants support fully developed projects for which needs assessments, partnership development, feasibility analyses, prototyping, and other planning activities have been completed. •Planning Grants allow project teams to perform preliminary planning activities that could lead to a subsequent full project, such as needs and feasibility analyses, solidifying partnerships, developing project work plans, or developing prototypes or proofs of concept. Applications for Planning Grants must include at least one formal partner in addition to the lead applicant. •National Forum Grants provide the opportunity to convene qualified groups of experts and key stakeholders to consider issues or challenges that are important to libraries, museums, and/or archives across the nation. Grant-supported meetings are expected to produce widely disseminated reports with expert recommendations for action or research that address a key challenge identified in the proposal. The expert recommendations resulting from these meetings are intended to guide future proposals to the National Leadership Grant program.

Deadline: February 1, 2012

Maximum Grants: \$500,000

Grant Link: <http://www.ims.gov/applicants/detail.aspx?GrantId=14>

Sparks! Ignition Grants for Libraries and Museums

The Sparks! Ignition Grants for Libraries and Museums are a special funding opportunity within the IMLS National Leadership Grants program. These small grants encourage libraries, museums, and archives to test and evaluate specific innovations in the ways they operate and the services they provide. Sparks Grants support the deployment, testing, and evaluation of promising and groundbreaking new tools, products, services, or organizational practices. You may propose activities or approaches that involve risk, as long as the risk is balanced by significant potential for improvement in the ways libraries and museums serve their communities. Successful proposals will address problems, challenges, or needs of broad relevance to libraries, museums, and/or archives. A proposed project should test a specific, innovative response to the identified problem and present a plan to make the findings widely and openly accessible. To maximize the public benefit from federal investments in these grants, the Sparks Grants will fund only projects with the following characteristics: Broad Potential Impact—You should identify a specific problem or need that is relevant to many libraries, archives, and/or museums, and propose a testable and measurable solution. Proposals must demonstrate a thorough understanding of current issues and practices in the project's focus area and discuss its potential impact within libraries, archives, and/or museums. Proposed innovations should be widely adoptable or adaptable. Significant Innovation—The proposed solution to the identified problem must offer strong potential for non-incremental, significant advancement in the operation of libraries, archives, and/or museums. You must explain how the proposed activity differs from current practices or takes advantage of an unexplored opportunity, and the potential benefit to be gained by this innovation.

Deadline: February 1, 2012

Maximum Grants: \$25,000

Grant Link: <http://www.ims.gov/applicants/detail.aspx?GrantId=19>

NEA Outtown Grant

The Arts Endowment's support of a project may start on September 1, 2012, or any time thereafter. A grant period of up to two years is allowed. Grant Program Description Art works to improve the lives of America's citizens in many ways. Communities across our nation are engaging design and leveraging the arts to create livable, sustainable neighborhoods with enhanced quality of life, increased creative activity, distinct identities, a sense of place, and vibrant local economies that capitalize on existing local assets. The NEA defines these efforts as Creative Placemaking: "In creative placemaking, partners from public, private, nonprofit, and community sectors strategically shape the physical and social character of a neighborhood, town, tribe, city, or region around arts and cultural activities. Creative placemaking animates public and private spaces, rejuvenates structures and streetscapes, improves local business viability and public safety, and brings diverse people together to celebrate, inspire, and be inspired." Ann Markusen, Markusen Economic Research Services Anne Gadwa, Metris Arts Consulting From Creative Placemaking

Deadline: March 1, 2012

Maximum Grant: \$150,000

Grant Link: <http://www.arts.gov/grants/apply/OurTown/index.html>

Institutes for Advanced Topics in the Digital Humanities

These NEH grants support national or regional (multistate) training programs for scholars and advanced graduate students to broaden and extend their knowledge of digital humanities. Through these programs, NEH seeks to increase the number of humanities scholars using digital technology in their research and to broadly disseminate knowledge about advanced technology tools and methodologies relevant to the humanities. The projects may be a single opportunity or offered multiple times to different audiences. Institutes may be as short as a few days and held at multiple locations or as long as six weeks at a single site. For example, training opportunities could be offered before or after regularly occurring scholarly meetings, during the summer months, or during appropriate times of the academic year. The duration of a program should allow for full and thorough treatment of the topic.

Deadline: March 6, 2012

Maximum Grant: \$250,000

Grant Link: <http://www.neh.gov/grants/guidelines/IATDH.html>

COMMUNITY AND ECONOMIC DEVELOPMENT

FY 2012 Public Works and Economic Adjustment Assistance Programs Opportunity

EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the FFO, EDA will consider construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Under the FY 2012 FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions. The next four funding cycle deadlines are: (i) December 15 for funding cycle 2 of FY 2012; (ii) March 9 for funding cycle 3 of FY 2012; (iii) June 8 for funding cycle 4 of FY 2012; and (iv) September 14 for funding cycle 1 of FY 2013.

Deadline: December 15, 2011

Grant Link: http://www.eda.gov/PDF/FY_2012_EDAP_FFO_11-18-11_FINAL.pdf

Community Action Grants for Women and Girls

The American Association of University Women (AAUW) is a charitable membership organization aimed at promoting education and equity for women and girls by providing millions of dollars in fellowships, grants, and awards for outstanding women around the globe and for community action projects. Community Action grants provide seed money to individual women, AAUW branches and AAUW state organizations, as well as local community-based nonprofit organizations for innovative programs or non-degree research projects that promote education and equity for women and girls. Applicants must be U.S. citizens or permanent residents. One-year grants (\$2,000-\$7,000 over one year) are given for new projects promoting education and equity for women and girls. Two-year grants (\$5,000-\$10,000 over two years) are given for longer-term programs that address the particular needs of the community and develop girls' sense of efficacy through leadership or advocacy opportunities. Topic areas are unrestricted, but should include a clearly defined activity that promotes education and equity for women and girls. Applicants must be women who are U.S. citizens or permanent residents. Nonprofit organizations must be based in the United States. Grant projects must have direct public impact, be nonpartisan, and take place within the United States or its territories. Special consideration is given to projects focused on K-12 and community college girls' and women's achievements in science, technology, engineering or math.

Deadline: January 15, 2012

Maximum Grant: \$10,000

Grant Link: http://www.aauw.org/learn/fellows_directory/

ENVIRONMENT AND WATER

Water Conservation Field Services Program - Lower Colorado Regional Area

The objective of this FOA is to invite irrigation and water districts, states, local governments, water providers, and other entities that have a tie to Reclamation projects to leverage their money and resources by cost sharing with Reclamation on activities/projects that make more efficient use of existing water supplies through water conservation and efficiency in the LCRA. Activities/Projects will be selected through a competitive process using the selection criteria listed. Eligible applicants include agricultural and M&I water user entities, states, tribes, local governments, and other organizations with water delivery authority. To be eligible for financial assistance under this announcement, the applicant must have a definable relationship to the watershed of one, or more, specific Reclamation water projects in the LCRA boundaries. For the purposes of this funding announcement, a Reclamation project is defined as a specific Reclamation water project that was authorized by Congress and constructed by Reclamation. This includes everything within the project service area (i.e., project features and facilities, project service area, watershed, water systems or water supplies affected by a specific Reclamation project) and the Colorado River. Substantiation of a Reclamation water supply contract is one way to show a relationship to a Reclamation project.

Deadline: January 17, 2012

Grant Link:

National Oceanic Atmospheric Administration Broad Agency Announcement (BAA)

As an agency with responsibilities for maintaining and improving the viability of marine and coastal ecosystems, for delivering valuable weather, climate, and water information and services, for understanding the science and consequences of climate change, and for supporting the global commerce and transportation upon which we all depend, NOAA must remain current and responsive in an ever-changing world. We do this in concert with our partners and stakeholders in federal, state, and local governments and private organizations, applying a systematic approach that links our strategic goals through multi-year plans to the daily activities of our employees. Every year we are committed to re-evaluate our progress and priorities, look for efficiencies, and take advantage of new opportunities to improve our information, products, and services. In furtherance of this objective, NOAA issues this BAA for extramural research, innovative projects, and sponsorships (e.g., conferences, newsletters etc.) that address one or more of the following four mission goal descriptions contained in the NOAA Strategic Plan: Climate Adaptation and Mitigation; Weather-Ready Nation; Healthy Oceans; Resilient Coastal Communities and Economies.

Deadline: September 30, 2013

Grant Link:

<http://www07.grants.gov/search/search.do;jsessionid=by8LTYgYGPrhnTWKs6CxYphgyptq961NvW6RZdQFply7psChvVMD!347337819?opId=132454&mode=VIEW>

HEALTH-RELATED

Critical Congenital Heart Disease Newborn Screening Demonstration Program

The purpose of the Critical Congenital Heart Disease (CCHD) Newborn Screening Demonstration Program is to support the development, dissemination and validation of screening protocols and newborn screening infrastructure for point of care screening specific to CCHD (i.e., the measurement of blood oxygen saturation as a detection method). The demonstration program must focus on enhancing state screening infrastructure, including the implementation of an electronic health information exchange for reporting and collecting pertinent information from hospitals, as well as the education and training of various stakeholders on testing methodology and follow-up protocols. This announcement solicits applications for activities to: 1) Enhance, improve or expand the capacity of state, local public health agencies and hospitals to: provide screening; counseling; link the results of CCHD screening to needed follow-up health care services; and/or perform the necessary quality assurance, outcomes analysis and other public health surveillance functions; 2) Assist in providing health care professionals and newborn screening program personnel with education in newborn screening and training in relevant new

technologies for critical congenital heart disease (such as the use of pulse oximetry); 3) Develop and deliver educational programs (at appropriate literacy levels) about critical congenital heart disease newborn screening, counseling, testing, follow-up, treatment, and specialty services to parents, families, and patient advocacy and support groups; and 4) Establish, maintain, and operate a system to coordinate and assess screening programs and follow-up relating to critical congenital heart disease.

Deadline: January 17, 2012

Maximum Grant: \$2,100,000

Grant Link: <https://grants.hrsa.gov/webExternal/SFO.asp?ID=915AFF05-259F-4AD5-9535-EEE225FA6D33>

Lead-Based Paint Hazard Control Grant Program

The overarching purpose of the Lead Based Paint Hazard Control Program and the Lead Hazard Reduction Demonstration Grant Program is to assist states, Native American Tribes, cities, counties/parishes, or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing, with the exception that the Lead Hazard Reduction Demonstration Grant Program is targeted for urban jurisdictions with the greatest lead-based paint hazard control needs. To be eligible to apply for funding under this NOFA, you must be a state, Native American Tribe, city, county/parish, or other unit of local government. Multiple units of a local government (or multiple local governments) may apply as a consortium; however, a principal (lead) applicant must be identified that will be responsible for ensuring compliance with all requirements specified in this NOFA. State government and Native American tribal applicants must have an Environmental Protection Agency (EPA) authorized lead-based paint training and certification program.

Deadline: January 18, 2012

Maximum Grant: \$2,300,000

Grant Link:

<http://www07.grants.gov/search/search.do;jsessionid=by8LTYqYGPrhnTWKs6CxYphgyptq961NvW6RZdQFply7psChvVMD!347337819?oppld=132134&mode=VIEW>

Lead Hazard Reduction Demonstration Grant Program

The overarching purpose of the Lead Based Paint Hazard Control Program and the Lead Hazard Reduction Demonstration Grant Program is to assist states, Native American Tribes, cities, counties/parishes, or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing, with the exception that the Lead Hazard Reduction Demonstration Grant Program is targeted for urban jurisdictions with the greatest lead-based paint hazard control needs. To be eligible to apply for funding under this NOFA, you must be a state, Native American Tribe, city, county/parish, or other unit of local government. Multiple units of a local government (or multiple local governments) may apply as a consortium; however, a principal (lead) applicant must be identified that will be responsible for ensuring compliance with all requirements specified in this NOFA. State government and Native American tribal applicants must have an Environmental Protection Agency (EPA) authorized lead-based paint training and certification program.

Deadline: January 18, 2012

Maximum Grant: \$3,000,000

Grant Link:

<http://www07.grants.gov/search/search.do;jsessionid=by8LTYqYGPrhnTWKs6CxYphgyptq961NvW6RZdQFply7psChvVMD!347337819?oppld=132135&mode=VIEW>

Research Centers in Primary Care Practice Based Research and Learning

This FOA solicits Center Core grant (P30) applications from organizations with a demonstrated track record of success in conducting research in primary care PBRNs. Each successful applicant will serve as a Research Center in Practice-Based Research and Learning. These Each Center must have at least 120 primary care member practices and may either consist of 1) a primary organization with 3 or more affiliated regional PBRNs(including a PBRN affiliated with the primary organizations); or 2) be a national PBRN organized around shared resources and research infrastructure. It is expected that each Center will foster a highly collaborative, interdisciplinary research environment. By leveraging common

resources, it is expected that either the consortium of PBRNs or the national PBRN will demonstrate greater productivity and will develop and conduct independent research projects more quickly than they would as separate PBRNs without a central infrastructure and collaborative partners. AHRQ is particularly interested in supporting an infrastructure that would accelerate both the generation of new knowledge and a community of learning for primary care practices to improve quality, patient safety and effectiveness of care. This funding opportunity provides no funds for specific research projects. The funds to be awarded are intended to strengthen the research and dissemination infrastructure of each Center. It is expected that as a result of this funding, Centers will be more equipped to compete for research funding from AHRQ and other funders and be better able to conduct primary care practice-based research and support quality improvement in member practices. Additionally, AHRQ intends to publish future rapid-cycle FOAs describing research projects that will be limited to funded Centers because of the cohesive infrastructure required to respond to these rapid-cycle funding opportunities.

Deadline: January 26, 2012

Grant Link: <http://grants.nih.gov/grants/guide/rfa-files/RFA-HS-12-002.html>

Mentored Research Scientist Development Award in Metabolomics

Metabolomics is a rapidly growing field that has the potential to advance our understanding of human diseases and how individuals respond to therapy. It is critical to have highly trained individuals who understand the field of metabolomics and can work and communicate with clinicians and other health professionals to perform, analyze and interpret the data obtained from metabolomic studies. This NIH Mentored Research Scientist Development Award will provide salary and research support for a sustained period of protected time (3 to 5 years) for postdoctoral and clinical fellows or investigators who meet the definition of a NIH New Investigator to pursue intensive research training in the field of metabolomics under the guidance of an experienced mentor who has an established research record in metabolomics. Total funding available, \$10,000,000.

Deadline: January 31, 2012

Grant Link: <http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-11-017.html>

Environmental Health Sciences (EHS) Core Centers

The National Institute of Environmental Health Sciences (NIEHS) invites applications from qualified institutions for support of Environmental Health Sciences Core Centers (EHS CC). The Centers are designed to establish leadership and support for programs of excellence in environmental health sciences by providing scientific guidance, technology, and career development opportunities for promising investigators. A Core Center Grant is an institutional award to support centralized scientific resources and facilities shared by investigators with existing research projects. By providing structure and resources, this support is intended to enhance the ability of scientists working in the field of environmental health sciences to identify and capitalize on emerging opportunities that will translate into advances improving the understanding of the relationships among environmental exposures, human biology, and disease. Total funding: \$6,000,000.

Deadline: February 14, 2012

Maximum Grant: \$250,000

Grant Link: <http://grants.nih.gov/grants/guide/rfa-files/RFA-ES-12-002.html>

AHRQ Patient Centered Outcomes Research Institutional Award

Purpose. The purpose of this solicitation is to support the career development of post-doctoral scholars in methods to conduct comparative effectiveness research. Under this award, these scholars can be selected and appointed to this program by the K12 Program Director and grantee institution.

Deadline: March 1, 2012

Maximum Grant: \$600,000

Grant Link: <http://grants.nih.gov/grants/guide/rfa-files/RFA-HS-12-001.html>

Palliative Care and End of Life in People Living with HIV/AIDS

NINR is soliciting research focused on current palliative care (PC) and end of life (EOL) needs in people living with HIV/AIDS (PLWHA). Highly active antiretroviral treatment (HAART) has prolonged the lives of PLWHA leading to increasing numbers of people in the later stages of disease in need of quality PC and

EOL support. This is particularly important in populations where HIV/AIDS is most prevalent and mortality from HIV/AIDS is the highest.

Deadline: March 22, 2012

Maximum Grant: \$300,000

Grant Link: <http://grants.nih.gov/grants/guide/rfa-files/RFA-NR-12-004.html>

Identifying Heart, Lung, and Blood Disease-Causing Variants

The objective of this initiative is to stimulate research to identify heart, lung, and blood disease-causing rare variants using the extensive exome data generated by the American Recovery and Reinvestment Act of 2009 (ARRA) GO exome sequencing project (GO ESP), CHARGE-S, and related genomic data.

Deadline: February 8, 2013

Grant Link: <http://grants.nih.gov/grants/guide/pa-files/PA-R-12-043.html>

HOUSING

Housing Counseling Program

This program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objectives of the program are to improve financial literacy, expand homeownership opportunities, improve access to affordable housing and preserve homeownership. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy and homeownership. Additionally, counselors may provide counseling services to homeowners to prevent or resolve mortgage delinquency, default, and foreclosure, with the primary objective to preserve homeownership. Counselors provide guidance and advice to help families and individuals meet the responsibilities of homeownership and modify or refinance their loans. Counselors also help borrowers avoid inflated appraisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and eventually foreclosure. Counselors can also assist homeowners with inquiries related to mortgage scams, and reporting instances of potential mortgage scam victimization. Applicants funded through this program may also provide Reverse Mortgage Counseling to senior homeowners who seek to convert equity in their homes into income that can be used to pay for home improvements, medical costs, living expenses, or other expenses. **FUNDING:** Housing counseling funding is distributed over four applicant categories Local Housing Counseling Agencies \$10,250,000, Intermediaries \$25,800,000, State Housing Finance Agencies \$2,800,000, and Multi-State Organizations \$1,200,000.

Deadline: January 12, 2012

Grant Link:

<http://www07.grants.gov/search/search.do;jsessionid=by8LTYqYGPrhnTWKs6CxYphgyptq961NvW6RZdQFply7psChvVMD!347337819?oppld=132413&mode=VIEW>

SAFETY

Second Chance Act Demonstration Field Experiment: Fostering Desistance through Effective Supervision

The Second Chance Act (SCA) of 2007 (Pub. L. 110-199) provides a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and returning to communities. There are currently over 2.3 million individuals serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all offenders incarcerated today will eventually be released and will return to communities. The Second Chance Act helps to ensure that the transition individuals make from prison, jail, or juvenile residential facilities to the community is successful and promotes public safety. As part of a collaborative effort with the National Institute of Justice (NIJ) and the National Institute of Corrections (NIC), BJA seeks proposals to implement and rigorously test important criminal justice interventions and programs as part of a multi-site Demonstration Field Experiment (DFE) on prisoner reentry. The tested intervention will address motivation to change as well as criminal thinking, two areas that we need more scientific information. In addition, parole officers and service providers will work collaboratively to improve delivery of the DFE intervention. The DFE will use a randomized controlled trial research method. This multi-site

DFE is part of BJA's reentry activities supported with funding under the SCA. One purpose of the SCA is to generate new evidence about effective solutions for reducing recidivism among the increasing number of people who are released from jail and prison to communities as well as the subsequent challenges communities face as offenders reintegrate into society. Eligible Applicants: State governments, County governments, City, or township governments, and Native American tribal governments (Federally recognized).

Deadline: February 23, 2012

Maximum Grant: \$1,000,000

Grant Link: <http://www.ojp.usdoj.gov/BJA/grant/12SecondChanceDFEsol.pdf>

SCIENCE AND TECHNOLOGY

Precision Measurement Grant Program

Since 1970, NIST, as part of its research program, has provided funding under the Precision Measurement Grant Program (PMGP) primarily to universities and colleges so that faculty may conduct significant research in the field of fundamental measurement or the determination of fundamental constants. NIST sponsors these research projects primarily to encourage basic, measurement-related research in universities and colleges and other research laboratories and to foster contacts between NIST scientists and those faculty members of academic institutions and other researchers who are actively engaged in such work. The PMGP is also intended to make it possible for researchers to pursue new ideas for which other sources of support may be difficult to find. There is some latitude in research topics that will be considered under the PMGP. The key requirement is that the proposed project is consistent with NIST's ongoing work in the field of basic measurement science (<http://pml.nist.gov>). Abbreviated proposals must be submitted under the PMGP in order to be considered for funding. Details of the submission process for abbreviated proposals are contained in the Full Announcement. Only proposers whose proposals have been selected by NIST as "finalists" and who have been requested by NIST to submit a full proposal are permitted to submit full proposals to NIST for the PMGP.

Deadline: February 2, 2012

Grant Link: <http://www.nist.gov/pml/div684/fcdc/upload/2012-PMGP-FFO-FINAL.pdf>
